Came to work JOYC one day & found
a bird handcuffed to a grate in the
ground near main food. He had a blanket
stuffed in the grate - He had been there
all night I think. I think it was just
because he was noisy in the wings.

Name should not be mentioned.

Not Daniel Alderton - cause he died at
home of unknown attack. Sarah knows his
name but I can't remember

Trevor box still there & should know.

Fred Feige
N.K. of exactly on duty but know of
the incident.

Incident report were kept there.

Handcuffing was introduced by Coyne when
arrived as manager.

I objected

Pethigier visited us.

George Nixon also came down - he had something.

He tried to get the introduction of handcuffing as a unanimous decision by the team & I was the only one who stood out & disagreed & Peter said the meeting would go on until I did.

This was a management meeting - Principal Youth officers & above (I might have been senior as well).

2 Deputies, the manager & I think a psychologist too.

Boyer introduced the fitting of points of attachment in the 3 room 1's - the secure rooms in each wing.

Principal Youth officer - responsible for internal & external recreational activities.

Handcuffing was not all that common - not every day - There was the home out room & no attachment point there.

Peter took over from Terry Mc Dermott.

I told Herrier about the handcuffing & my disagreement with it.

Met Mrs Alton - she on TV after he died. Not long after his release. Not sure where she lived - probably not Benleigh. Not think we ever

handcuffed David.

can't recall any death in custody in my
name.

I retired 1994.

1 suicide in the Leslie Wilson recently. - last
Xmas.

We had suicide attempts - some birds
really tough.

Shea
Shane Doolan | heard of
ble.

P.A. heard of the Sweeney.

Name of P. O'Leary - rings a bell but not Grangahilly.

Theresa A'Hearn was a toughie - v. violent.
came from Bunamulle.

David worked with Sarah Moylham.

Anne Dubrey was Deputy Manager appointed by Boyne
Drugs were rarely administered + then only if
prescribed by psychiatrist. - not on staff.
Nurse administered them on this prescription.

P.A. know of medication being used
Serapax | med. prescribed.

We had 28 - 30 odd birds.
